VOL. CXXXV—No. 96. ALEXANDRIA GAZETTE TUESDAY, APRIL 22, 1919. PRICE, ONE CENT

SEIZE $20,000 WORTH OF LIQUOR

Forty Seven Barrels Captured at Potomac Freight Yards

WAS CAMOUFLAGED

Big Haul Carried to Alexandria County Jail—Contents of Car Revealed by Leakage.

A leaky "Lumber" car was responsible for the capture of forty-seven barrels of whisky valued at about $20,000 at the Potomac freight yards yesterday afternoon.

The car containing the contraband liquor was cleverly camouflaged on top and sides with dressed lumber and would undoubtedly have reached its destination, Richmond, Va., had it not been for the fact that it leaked.

A seal clerk employed at the yards in making an inspection of the cars came across a big C and O freight car which emitted a strong odor of liquor. A deeper investigation disclosed that the car was leaking. A number of railroad employes were called into consultation and the car was opened. On all sides was lumber. However, it was deemed wise to make a deeper probe and soon the camouflage was discovered and the real contents of the car ascertained.

Commonwealth's Attorney Frank L. Ball, of Alexandria county, was notified, and soon a number of big motor trucks were on the scene and kept busy hauling the liquor to the Alexandria County jail on Fort Myer Heights.

Shipped From New York.

According to reports the liquor was shipped from the 46th Street Station, New York, and was consigned to a lumber company in Richmond, Va.

This is one of the biggest hauls of liquor ever made since Virginia entered the dry column of states. Each barrel contains approximately forty-five gallons of whisky which is round figures would mean that the total number of gallons is in excess of 2,000 or more than 8,000 quarts which at the lowest retail price would mean that it is worth fully $20,000 wholesale. At bootlegger's prices in Richmond it would have brought more than $40,000 had it reached that city.

Popular Brands of "Joy Fluid."

The whisky will, however, eventually reach Richmond and be turned over to State Prohibition Commissioner J. Sidney Peters.

The whisky captured was known as Old Taylor and Hannisville and according to those well versed in the brands both are considered to be excellent quality and meet a ready sale.

Employes of the railroad yards gazed on in amazement as they saw the forty-seven barrels of precious "joy fluid" carried away to the jail by the officials of Alexandria County. Such a sight, that as far as cargo is concerned, was never before witnessed in Alexandria County.

The next move on the part of the state authorities will be to find the owners of the liquor. It is safe to say, however, that they will not make application for the return of the liquor, as if they did they probably would in addition to losing the liquor face a long jail sentence and in addition pay a heavy fine.

TROOPS ON THE WATCH

Virginia Town Expects Attack by Morris Clan Following Threats

Standardsville, Va., April 22.—While the grand jury yesterday considered the case of Herman Shiflett, alleged accomplice of Edgar Morris, who is alleged to have shot and killed Magistrate S. G. Sullivan, March 29. the State is taking the utmost precaution to prevent Morris' threat to shoot up the courtroom if his companion is indicted.

Generally regarded as a quiet, peaceful community, last night Standardsville resembled a mobilization camp for troops. The town virtually is under martial law and those who approach are searched. The troops occupied places in the court room usually reserved for spectators, and armed to the teeth, each and every one is keeping a watchful eye on all who had business in the room.

Rev. C. A. Willard, the Dunkirk minister, who is said to have been dragged from his pulpit by Morris and John Henry Morris, who says his life has been threatened by Edgar were among those who had weapons taken from them.

Shiflett is in jail here and the grand jury considered his case as well as that of Edgar Morris, but the last named is in hiding in the mountains surrounding the town. Efforts of a posse, headed by Sheriff Malone, to capture Morris have proved of no avail and after searching the mountains for a week, the sheriff and his men have returned here. No effort has been made to run Morris down by the aid of troops.

MUST EMPOWER HUN DELEGATES

Paris, April 22.—The allied governments have notified the German government that the plenipotentiaries coming to Versailles must be fully empowered to accept the preliminary peace treaty, discuss certain clauses, and sign the whole, it was officially announced yesterday afternoon.

Washington, April 22.—This confirms unofficial reports circulated earlier in the day. It also indicates that the Germans will be permitted to negotiate regarding certain portions of the treaty.

The accident occurred in the Coleman home and was the result of a "new game" the children were playing with their father's revolver.

The women's committee on the Victory Loan held a largely attended meeting last night in the rooms of the Chamber of Commerce at which time plans were mapped out for an aggressive campaign for the sale of the bonds. DISCUSS NEW FORM OF CITY GOVERNMENT

The Citizens' committee held a meeting in the auditorium of the Chamber of Commerce last night at 8 o'clock and discussed, all questions that had been presented to the committee and also questions presented by those present.

Great interest was manifested by those attending this meeting and the committee is gratified that the citizens are beginning to analyze the plan on its merits.

A public meeting will be held on next Friday night at which meeting all details of the plan will be discussed by local union, and all questions presented will be answered.

It is hoped by the Citizens' Committee that every taxpayer will realize his duty to himself and his community in reaching a decision in this important matter.

If you don't know all the real facts in regard to this plan, you are urged by the committee to attend the meeting Friday night.

LIGHT VOTE CAST IN PRIMARY

At 3 o'clock This Afternoon Less Than 300 Ballots Polled

LANDSLIDE FOR MOORE

Polls Will Close at 7:41 O'Clock—All Urged to Vote Before Closing—General Apathy Prevails.

The lightest vote ever before polled in a Congressional primary will have been cast in this city when the polls close at sunset at 7.41 o'clock this evening. All are urged to vote before the polls close. At 3 o'clock this afternoon less than 300 votes had been cast, or less than one-sixth of the total voting strength of the city which is about 1800.

The campaign throughout has been characterized by apathy, there being no interest manifested.

The candidates are R. Walton Moore and H. Earlton Hanes, both of Fairfax county.

Mr. Moore undoubtedly will receive the nomination by a handsome majority. His friends predict a landslide.

The judges of election have spent a dull day awaiting the arrival of voters at the polls.

Exactly 264 votes has been polled at 3 o'clock this afternoon.

Votes by wards follows:

First	69
Second	72
Third	62
Fourth	61

The general election will be held May 27.

GETS DEATH THREAT

Letter Signed "Snowden" Goes to Governor Harrington of Maryland

Baltimore, April 22.—Gov. Harrington yesterday received a black hand letter signed "Snowden," The writer threatnes death to the governor or to some member of his family by poison or otherwise prior to June 1. The letter was postmarked Annapolis. The handwriting was disguised.

When the governor signed Snowden's death warrant over two months ago his life was then threatened. When Snowden was hanged threats were made by Snowden's colored friends that they would burn the city. A military company, armed with machine guns, was dispatched to Annapolis and remained on patrol duty for a day and night. At that time there was no hostile demonstration.

Since that time, however, there have been three fires in Annapolis, all supposed to be of incendiary origin. A peculiar fact is that two of three fires occurred on Friday nights, anniversaries of Snowden's hanging.

GERMANY MAY DEFY ALLIES

Cabinet and Foreign Office Defiant in Last Bid For Power.

WILL ASK FOR PARLEY

Delegates Prepare Their Own Interpretation of Wilson's Points—Camouflage Suspected.

Berlin, April 22.—The German government was reported to have decided not to accept the peace treaty without waiting to learn the terms.

Both the cabinet and the foreign office are openly defiant, figuring the allies are not in a position to retaliate.

The radicals are demanding acceptance of any terms submitted by the allies, but the cabinet now declares final decision rests with the national assembly, and not with a plebiscite.

The general opinion prevails here that the government has deliberately misinterpreted the allied invitation to Versailles, hoping to provoke a crisis that will enable the government to blame the allies if the cabinet is overthrown by the radicals.

Berlin newspapers discussing the allied invitation to Paris emphasize the necessity for real "negotiations" pointing out that otherwise it will be impossible for the Germans to sign the treaty.

"It will be impossible to sign any agreement beyond the fourteen points the Tages Zeitung and the Kruez Zeitung declared.

The German peace delegation is going to Paris confidently expecting to wreck the allied peace machine. This is plainly evident from statements in the Berlin press, as well as the attitude of the foreign office.

"THE MASTER MYSTERY"

At The Grand Theatre Tomorrow Best Bill of the Year

Putting Houdini and his celebrated escapes into a serial was a clever piece of showmanship. The Handcuff King himself is one of the best showmen in the world, and has obtained more free advertising than any other entertainer now before the public. His ready inventive faculty is constantly supplying him with a new sensation, and his skill in performing his feats of daring and mystery places him at the head of his class of wonder workers.

In "The Master Mystery," written by Arthur B. Reeves and Charles A. Logue, and produced by B. A. Rolfe there is every promise that its fifteen episodes will keep the movie fan on the edge of his seat throughout each number and leave him hardly able to wait for the time between each installment to pass. A special showing of the first four episodes were given at the Strand Theatre, New York November 6. Each episode contains one of Houdini's famous escapes. The Handcuff King takes the part of Quentin Locke, an agent of the Department of Justice engaged in trapping a pair of patent lawyers, who make it their business to surpress any invention that passes through their hands which might effect the value of inventions already in use. Locke has been employed by the lawyers as a chemist, and becomes an inmate of the home of Peter Brent, one of the firm. See it that's all. Also Mary Pickford in The Dawn of Tomorrow 96-1t.

CITY GOVERNMENT

Deduction Given by Citizens' Committee on Proposed Change

Modern municipal government has become a science of administration—a science that can be reduced to a almost exact degree of efficiency. The establishment of such a government however, requires community self knowledge, and a simple, representative and responsive form of organization.

When the cost of government exceeds the revenues, the situation is serious, and if not checked will bring financial disaster.

A city governed by large council composed of men busy with and interested in their own affairs, cannot conduct city affairs on an economical business basis, and the old saying "Everybody's business is nobody's business" was probably originated to express the lack of fixed responsibility in American City Government.

Considering the condition that exists in Alexandria, where the floating debt seems to be steadily on the increase, taxpayers should be deeply concerned with the kind of government, which they allow themselves to be taxed to support, because the degree of public inefficiency they sanction determines the extent of the additional and unnecessary money burden they must bear.

The profitableness of their tax investment is thus measurable, in terms of the efficiency of the city government to which they contribute their wealth.

No city can progress beyond the standard set by the intelligent citizenship.

Does the intelligent citizenship think that the complex provisions of Alexandrias Charter provides an organization for efficient administration, or does it believe it is a conglomeration of provisions, in which no responsibility can be fixed.

Would not a form of government modeled after a private corporation in which the voters at large would be the stockholders, the Commission of five to eleven members, the Board of Directors and the City Manager the General Manager appeal to the intelligent citizenship of Alexandria?

The General Assembly of Virginia has provided such a form of government for every city in the State which desires it.

The first step in the establishment of a more efficient city government is to acquire municipal self knowledge. It is essential that we "know" our city if we are to govern it with the greatest degree of intelligence and efficiency. A City's government is the instrument that moulds its progress. The duty, therefore, of every taxpayer is to inform himself thoroughly about the city's needs in order that the most efficient form of government can be maintained.

WOULD EXCEL JULES VERNES.

Many years ago, before the advent of flying ships, an enthusiastic balloonist imagined he could encircle the globe in twenty-four hours. He planned to ascend in a balloon and remain high in the air until the earth turned over and then drop anywhere he might choose. Somebody called his attention to the fact that he would be compelled to go at least fifty miles above the earth in order to escape its attraction, in which event the orb would pass from under him as rapidly as an aerolite, and the balloonist would find himself in space until he came near enough to some celestial body to get within its attraction.

Judging from the following this dream is still being nurtured:

"Five thousand feet in an aeroplane above City Hall, Philadelphia, Then you throw on your 'anti-gravity' brake, the motor stops purring, you lean back among the cushions for a quiet nap, while the plane remains stationary in the air. Meanwhile the earth below rotates for a few hours and you descend in the Euphrates Valley—or China."

Thus an employe of the Emergency Fleet Corporation describes an "invention," the "anti-gravity," brake, a brand-new attachment for aeroplanes. "It saves a lot of wear and tear on the motor," he said, "after one gets above the treetops and skyscrapers."

ERA OF OUTLAWRY

The shooting up of the court at Hillsville, Carroll county, Virginia, by outlaws a few years ago was a shock to peace-loving, law-abiding persons of the Old Dominion. Our state is now up against another horror, a justice of the peace of Greene county, representative of the commonwealth, having been ruthlessly slain while in the discharge of his duties. His slayer fled and now threatens to kill indiscriminately should the grand jury have the temerity to indict him for murder.

State troops may be called to Greene County to aid in the capture of Edgar Morris, alleged slayer of Magistrate Bluford Sullivan, who was shot to death immediately after imposing a fine on Morris for having thrown an Episcopal rector out of church in the hills near Standardsville. Morris is believed to be in hiding somewhere in the hill country, to which he fled after the grim tragedy.

Forty-eight hours of extreme violence caused Chief of Police Garrity, of Chicago, to summon all commanding officers to his office and warn them that unless there were unremitting efforts to check the crime wave some of them would face the trial board. Up to Saturday records in the chief's office showed that since January 1 there had been forty-three murders in the city, twenty-nine deaths by manslaughter and eight homicides, a total of eighty killings in 108 days. In addition, 202 stores had been robbed.

Organization of a Vigilantes Society by citizens is under way in Kansas City, Mo., in an effort to suppress a crime wave sweeping that city. Three murders, a suburban bank robbery and a physician "strong armed" on the city streets and robbed of more than $2,500 in cash and jewelry is the local record for forty-eight hours.

"FLYING" POLICEMEN

In some of the larger cities policemen are mounted upon horses, while others form bicycle squads. Venice, California, has a winged cop. He uses a flying machine, and has been found useful in overtaking speeding automobiles after the chauffeurs have shown their contempt of other officers.

The police department of Alexandriat is now equipped with a motor patrol wagon and a motorcycle, both of which had long been needed. The latter virtually paid for itself during the early part of last fall in fines collected from speeders. But, in keeping up with the times, will it be necessary in the future for the police to use an airplane with which to overtake violaters of the law?

FRUITS OF VICTORY

Thomas W. Gregory, former Attorney General, returned to New York on a transport a few days ago. During one of his addrsses on patriotism and democracy to the soldiers on board, one doughboy piped up and said: "Yes, we fought for democracy, but all we got was Spanish influenza and prohibition."

Editor, The Gazette.

Sir:

In 1915 there was passed by the City Council an ordinance entitled:

"An ordinance to provide for the granting by the City Council of Alexandria, to the person or persons, Corporation or Corporations hereafter to be ascertained in the manner prescribed by law, of the right to construct, maintain and operate a general telephone system in the city of Alexandria, and to erect, construct and maintain the necessary poles, wires, conduits, cables and fixtures on, over along, in, under and through the streets, public alleys and other public ways and places in the city of Alexandria, for the aforesaid purpose."

Section 4 of the ordinance reads as follows:

"Section 4:—That the schedule of rates for local exchange service now in force at Alexandria, Va., by the Chesapeake and Potomac Telephone Company of Virginia shall not be increased during the life of the franchise hereby granted without the consent of the State Corporation Commission of Virginia, or such other body as may have jurisdiction over telephone local exchange rates."

Passed Common Council March 9, 1915.

Passed Board of Aldermen May 11, 1915.

Now that the Chesapeake and Potomac Telephone Company has raised its rates in this city it may be well for the citizens to know of the existence of such a provision in said ordinance.

200,000 GERMANS TO FIGHT POLAND

London, April 22.—Field Marshal Von Hindenburg has 200,000 German troops at his headquarters in Kolberg for a campaign against Poland, according to a dispatch printed in the Times today.

These troops have been massed on the Baltic coast ostensibly to crush Bolshevism, but the real object is to make war against the Poles and to raid the Baltic provinces, it is said.

The existence of this force is jeopardizing the existence of Poland. The Lobau coup was part of the general plan and now the Germans have turned their eyes toward Riga.

Dr. Frederick Jacobson says, 75 per cent of women need Phosphates to give them Strong, Healthy, rounded figure and to avoid Nervous break down. Thousands of women grow strong in Nature's way.

"Consider the Lilies of the Field, How They Grow."

The life of the lily is but a few weeks or months. The life of woman is "three score years and ten." But to live one's life in its fullness, women like the lily, must be nourished by those same vital elements which nature provides for nourishing every living thing; and these include the valuable phosphates so often lacking in the usual food we eat today. Argo-Phosphate is rich in these wonderful elements. It contains them in concentrated tablet form which is easy to take and quickly assimilated and absorbed into the system, and from youth to old age, builds and rebuilds body and brain in beautiful harmony with Nature's perfect plan. "That's why" Argo-Phosphate makes good solid flesh and muscles.

SPECIAL NOTICE: Argo-Phosphate contains the Natural phosphates which thousands of physicians are prescribing daily to build up thin, pale, colorless women to give them rosy cheeks, red lips, and a beautiful complexion. Many cases have been reported where women have increased their weight from 15 to 25 pounds with a few weeks treatment, and any woman who desires a well rounded and developed form, should secure from her druggist, this new drug which is inexpensive and is dispensed by Richard Gibson and The Rexall tore, with or without a doctor's prescription. A Little Patience

Sometimes a telephone subscriber, when the called person does not answer immediately or the operator is a little slow in reporting, hangs up his receiver and abandons the call.

Please don't do it. It means that the work already performed goes for naught. Perhaps the operator has reached the called person and is about to put him on the line. You hang up and she is obliged to report that there is nobody on the line. Often the other man thinks she called him in error.

In justice to the operator and to save time for yourself (for you usually call again) please remain at the telephone until the person called answers or the operator reports.

Callus? Peel It Off Quickly!

Nothing On Earth Like "Gets-It" For Corns and Calluses.

A spot of thickened skin on the bottom of your foot which so often makes walking an agony, is as easily removed by wonderful "Gets-It" as any hard or soft corn anywhere on your toes. Look at this picture.—A few drops of "Gets-It" did the work. The callus comes loose from the true flesh. No irritation whatever. You peel the callus right off just like a banana peel—peacefully, painlessly. "Gets-It" does the same thing to any corn, without the use of sticky plasters, irritating salves, greasy ointments or bundling tape. There's no fussing—no knife, no scissors to use. "Gets-It" is used by millions, because it's common sense, and it never fails. Try it, prove it. "Gets-It," the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. Mfd by E. Lawrence & Co., Chicago, Ill.

HOW RHEUMATISM BEGINS

The excruciating agonies of rheumatism are usually the result of failure of the kidneys to expel poisons from the system. If the irritation of these uric acid crystals is allowed to continue, incurable bladder or kidney disease may result. Attend to it at once. Don't resort to temporary relief. The sick kidneys must be restored to health by the use of some sterling remedy which will prevent a return of the disease.

Get some GOLD MEDAL Haarlem Oil Capsules immediately. They have brought back the joys of life to countless thousands of sufferers from rheumatism, lame back, lumbago, sciatica, gall stones, gravel and other affections of the kidneys, liver, stomach, bladder and allied organs.

They will attack the poisons at once, clear out the kidneys and urinary tract and the soothing healing oils and herbs will restore the inflamed tissues and organs to normal health.

All others are imitations. Ask for GOLD MEDAL and be sure the name GOLD MEDAL is on the box. Three sizes, at all good druggists.

HOW TO SAVE ON SHOES

"Out of curiosity I tried a pair of Neolin Soles," writes W. P. Macartney of St. Louis, "and today, after five months of hard service I fail to notice any real signs of wear on them."

This statement points the way to real economy in shoes. What your shoes cost, by the year, depends largely on how the soles wear and Neolin Soles do wear a very long time. Moreover, they are exceedingly comfortable and waterproof—scientifically made to be exactly what soles should be and so worn now by millions.

They are available everywhere on new shoes and for re-soling. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear any other heels.

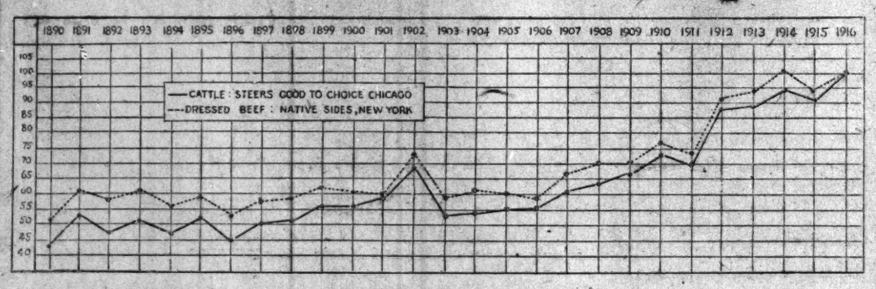
Why Beefsteak Is High



This chart was copied from Bulletin No. 226, U. S. Bureau of Labor Statistics. It is the latest that has been issued. 100=1916 price.

Remember when beefsteak was 20c a pound?

Now it's 40 and 50 cents a pound.

Why?

This chart shows that the price packers have had to pay for cattle has gone up with the price received for beef.

In fact, it shows that the "spread" between cattle and beef prices has been gradually reduced during the past 30 years—owing to competition among packers, their increased efficiency, bigger volume, and elimination of waste.

The packer's profit of only a fraction of a cent per pound of meat has helped to narrow this "spread."

Increased farm-production costs have made higher cattle prices necessary.

Laughs come thick and fast in "Sis Hopkins," Mabel Normand's new Goldwyn Picture, which comes to the Richmond Theatre, tonight. It is not to be wondered at with two such comic creatures as the star and the gawky Sisseretta, called Sis for short, made into one.

The screen version of the play that brought Rose Melville fame and made millions of theatergoers laugh is certain to score even greater success than was achieved by the Rose Melville vehicle in its stage form.

Pathe News also will be shown.

At the Ingomar Theatre tonight Louise Huff, the charming star, will be seen in her latest Paramount success, "The Little Intruder."

RECRUIT 10,000 FOR DUTY IN PACIFIC

Recruiting of a small force of 10,000 soldiers to protect American possessions in the Pacific has been ordered by the War Department.

These troops will be used to increase the garrisons in the Philippines, China, Hawaii and the Panama Canal Zone.

War Department officials deny that this force is being organized because of recent clashes between Americans and Japanese in China and Korea. It will be used merely to re-enforce the posts which were depleted during the war by the demands for troops in Siberia and in France.

The call is for 9,889 enlisted men. With the complement of officers necessary this force will be over 10,000
